Medallion Crazy Quilt from Quilts Japan Magazine

This beautiful quilt was featured in the March issue of Quilts Japan magazine in either 2003 or 2005--I've seen it credited to both years. I do not know the name of the maker, but it generated a lot of discussion on Crazy Quilting International, a Yahoo group. Beginning with message #38814, Judy Grant posed a question about piecing this type of medallion. This is a simple piecing diagram to follow.
